

Progress Report of Md. Mahmud Ali

Dear Members of the OIRC Committee,

I am sincerely thankful to the Oslo International Rotary Club (OIRC) for granting me the scholarship in 2023. This support has played an important role in my academic life, encouraging me to continue my studies with dedication and confidence. I am happy to provide a short update on my recent academic and professional activities. In my last two semesters (Level 4, Semester 1 and Semester 2 — course codes 401 and 402), I successfully achieved GPA of 3.51 and 3.50 out of 4.00 .

In July 2025, I began my compulsory internship as part of the 5th year of the Doctor of Veterinary Medicine (DVM) program. This internship represents a crucial phase of hands-on professional training aimed at developing real-world veterinary skills. I have completed my internship training at several renowned government and national institutions, including:

- Upazila Livestock Office and Veterinary Hospital, Sylhet (four different Upazilas), where I gained field-level experience in animal health services, disease diagnosis, vaccination programs, and farmer extension activities.
- Central Cattle Breeding and Dairy Farm (CCBDF), Savar, where I developed practical understanding of dairy herd management, breeding programs, and reproductive technologies.
- Central Veterinary Hospital (CVH), Dhaka, where I was exposed to advanced clinical cases, diagnostic procedures, and emergency veterinary care.
- Livestock Research Institute (LRI), Mohakhali, where I observed applied research activities, laboratory diagnostics.
- Bangladesh National Zoo, Mirpur, Dhaka, where I gained introductory exposure to zoo animal management, health monitoring, and wildlife veterinary practices.
- Currently, I am continuing my internship training at a pet clinic, “Vet CARE,” Sylhet, where I am developing essential skills in small animal clinical practice, including patient handling, diagnosis, treatment planning, and client communication.

The OIRC scholarship has played a vital role in enabling me to continue my education and grow both academically and professionally. I am deeply grateful for your continued support and encouragement. I remain committed to working diligently and aspire to make meaningful contributions to the field of veterinary science in the future.

With sincere gratitude,
 Md. Mahmud Ali
 Doctor of Veterinary Medicine (Intern Student)
 Faculty of Veterinary, Animal and Biomedical Sciences
