

Progress Report of Md. Omar Faruk

Dear Scholars Committee,
Oslo International Rotary Club (OIRC),

I hope you are well. I am writing to share my academic progress as a Rotary scholar.

My name is **Md. Omar Faruk**, and I am currently enrolled in the **MS program (Semester 1)** in the **Department of Fish Health Management** at **Sylhet Agricultural University, Bangladesh**. My postgraduate studies have now officially begun, and I am fully engaged in coursework and academic training related to fish disease management, aquatic animal health, and sustainable aquaculture practices.

This semester, I am focusing on strengthening my knowledge in aquatic pathology, fish immunology, aquatic pharmacology, and disease diagnostics, which are essential for improving fish health management systems in Bangladesh. My goal is to contribute to safer aquaculture practices, disease prevention, and public health protection through scientific research and responsible management strategies.

Prior to starting my MS, I successfully completed my **Bachelor (Honours) degree** with a **CGPA of 3.475**, which provided me with a strong academic foundation in fisheries and aquatic sciences. The support from the Oslo International Rotary Club has been instrumental in allowing me to continue my higher studies without financial interruption, and I remain deeply grateful for this opportunity.

I am committed to maintaining strong academic performance and to using my education to serve the aquaculture sector and community in the future, in line with Rotary's values of service and professional excellence.

Thank you very much for your continued support and trust.

Sincerely,

Md. Omar Faruk

MS Student, Fish Health Management
